To Whom It May Concern,

Please be advised that we recently retained Garden State Pavement Solutions to re-pave a section of our parking lot and tie in the downspouts from our buildings in to our underground storm water system.

We worked with Jason Ciavarro, who provided us a very detailed audit and estimate with photos and drone images for reference. Prior to work starting, we had a full meeting with all crew involved to coordinate efforts between his staff and ours, and work proceeded smoothly and the project completed ahead of schedule.

During work we experienced very minimal contingencies, and any change orders suggested were done so in the interest of providing the maximum value and longevity of our investment. Jason was very transparent with us at every step of the way, and was always more than happy to share his knowledge and experience.

We are beyond thrilled with the quality of the finished work and professionalism of Jason and his team. We will definitely be using Garden State Paving for future projects.

Thank you,

Carrie Pena
